DISCLAIMER

All efforts have been made to verify and collate information about organizations included in the Directory. Information has been collected from various sources, namely directories, newsletters, Internet, telephonic verification, letter heads, etc.

However, NIPCCD does not take any responsibility for any error that may inadvertently have crept in.

The address of offices of Government Departments, telephone numbers, e-mail IDs, activities, etc. change from time to time, hence NIPCCD may not be held liable for any incorrect information included in the Directory.

Introduction

Government organizations play a very important role in society. Social development has ranked high on the priority list of Government programmes since Independence, and in collaboration with voluntary organizations they have been important partners in dealing with social problems that exist at the community level. Government organizations, in collaboration with autonomous organizations, have provided funding, undertaken pioneering work in many areas, formulated policies for many newly emerging social problems, provided training to functionaries of voluntary organizations and other stakeholders, prepared IEC material and manuals, and evaluated the outcomes of many Government programmes for the under privileged.

A Project was undertaken by Documentation Centre for Women and Children (DCWC), NIPCCD to bring out Directories of Organizations working in many areas. This document covers Government organizations working for the empowerment of women, children, and various vulnerable groups in rural areas. For the convenience of users, departments in the Directory have been arranged alphabetically state-wise.

This Directory gives detailed information about departments in States and Union Territories and their activities, including postal address, telephone, fax, website, e-mail address, and key words indicating their areas of work and activities.

It has been possible to bring out this document due to the extensive cooperation extended by state departments that have shared the relevant information with us. Without their support it would not have been possible to bring out this compilation.

It is hoped that this document would be useful to all stakeholders working for the empowerment of vulnerable sections of society.
