## **DISCLAIMER**

All efforts have been made to verify and collate information about organizations included in the Directory. Information has been collected from various sources, namely directories, newsletters, Internet, proforma filled in by organizations, telephonic verification, letter heads, etc.

However, NIPCCD does not take any responsibility for any error that may inadvertently have crept in.

The address of offices of organizations, telephone numbers, e-mail IDs, activities, etc. change from time to time, hence NIPCCD may not be held liable for any incorrect information included in the Directory.

## **Introduction**

Government departments have a pivotal role in society. Social development has ranked high on the priority list of Government programmes since Independence, and autonomous and voluntary organizations have been important partners of the government in dealing with social problems that exist at the community level. Government departments have constantly increased their areas of work in keeping with new developments in society and technology, dealt with many new social problems, provided funding for training functionaries of voluntary organizations and other stakeholders, prepared training and communication material, and evaluated the functioning of various programmes funded by them for the under privileged.

A Project was undertaken by Documentation Centre for Women and Children (DCWC), NIPCCD to bring out Directories of Organizations providing services and support to vulnerable and underprivileged groups in society. Government departments provide services to women and children at risk, including street children and trafficked persons, provide training to functionaries, evolve policy guidelines to deal with various problems, prepare training and communication materials, etc.

This document covers government departments working for various vulnerable groups such as women in distress, children in need of care and protection, women and children working in hazardous conditions, etc. For the convenience of users, organizations in the Directory have been arranged alphabetically state-wise. This Directory gives detailed information about organizations and their activities, including postal address, telephone, fax, website, e-mail address, and key words indicating their areas of work and activities.

It has been possible to bring out this document due to the extensive cooperation extended by Government departments that have shared the relevant information with us. Without their support it would not have been possible to bring out this compilation.

It is hoped that this document would be useful to all stakeholders working for the empowerment of vulnerable sections of society.
