Foreword

Constitution of India is a written codified document which outlines an elaborate system for the government to work. Its objective is "ACCESS TO JUSTICE FOR ALL", so that justice is not denied to citizens by reasons of economic or other disabilities. The core value of our constitutional philosophy, as reflected in its preamble, is the dignity of individual which is the essence of human rights, demands, not merely the civil or political rights but also economic, social, and cultural rights. Legal Aid is an essential part of the administration of justice. Equal access to the law for the rich and the poor alike is essential for the maintenance of the rule of law.

It is, therefore, imperative to provide free and appropriate legal services to weaker sections of the society and to ensure that the opportunities for securing justice are not denied to any citizens by reason of economic or other disabilities.

Various organizations and agencies are rendering immensely valuable services in providing free legal aid and advice to poor, down trodden, women, children, SC and ST, physically handicap and other weaker sections of the society.

It is hoped that the Directory on Legislation being brought out by NIPCCD will be useful for persons working for the empowerment of vulnerable sections of the society and other stake holders.
