DISCLAIMER

All efforts have been made to verify and collate information about organizations included in the Directory. Information has been collected from various sources, namely directories, newsletters, Internet, proforma filled in by organizations, telephonic verification, letter heads, etc.

However, NIPCCD does not take any responsibility for any error that may in advertently have crept in.

The address of offices of organizations, telephone numbers, e-mail IDs, activities, etc. change from time to time, hence NIPCCD may not be held liable for any incorrect information included in the Directory.

Introduction

Research organizations play a very important role in society. Social development has ranked high on the priority list of Government programmes since Independence, and research organizations have been important partners in revealing the social problems that exist at the community level. Being in close proximity to the community, research institutes have done pioneering work in many areas, rendered services, highlighted many new social problems, undertaken advocacy, and evaluated the functioning of many Government programmes for the under privileged.

A Project was undertaken by Documentation Centre for Women and Children (DCWC), NIPCCD to bring out Directories of Organizations undertaking research and building the capacity of organizations by providing research support. These research institutes are working in many areas, namely health; nutrition; child welfare; social welfare; women welfare; children at risk, including street children and child labour; social defence, including trafficking; human development and education; scheduled castes/ scheduled tribes; and rural development.

This Directory gives detailed information about organizations and their activities, including postal address, telephone, fax, website, e-mail address, and key words indicating their areas of work and activities.

This document covers research organizations working in the field of social welfare that undertake research on various issues related to women, children and vulnerable sections of society. For the convenience of users, organizations in the Directory have been arranged alphabetically state-wise.

It has been possible to bring out this document due to the extensive cooperation extended by organizations that have shared the relevant information with us. Without their support it would not have been possible to bring out this compilation.

It is hoped that this document would be useful to all stakeholders working for the empowerment of vulnerable sections of society.
