## **DISCLAIMER**

All efforts have been made to verify and collate information about Institutes included in the Directory. Information has been collected from various sources, namely directories, newsletters, Internet, telephonic verification, letter heads, etc.

However, NIPCCD does not take any responsibility for any error that may inadvertently have crept in.

The telephone numbers, e-mail IDs, focus areas of research, etc. change from time to time, hence NIPCCD may not be held liable for any incorrect information included in the Directory.

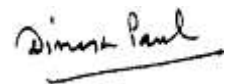

## Foreword

There numerous educational institutions all over the country providing comprehensive theoretical base and in-depth knowledge to the learners. Some of these conduct specialised courses of varying durations.

However, the students coming out from the portals of formal educational institution are not generally well equipped with the know-how and the multifarious practical skills required by the market and other recruiting organisations. As a result, these candidates find it difficult to get absorbed in the job market, or to set up an enterprise of their own.

Training institutions provide fulfill a vital felt need in this respect, as they train the candidates in necessary skills, know-how and to-do tips in real life situations. Such students are therefore readily absorbed by the industry or market. These training institutions thus serve an important role of bringing out much sought after manpower to fulfill the market needs. Their significance is not just restricted to a level of providing livelihood. They create professionals that add value to the national interest of development.

It is hoped that the Directory on Training Intuitions being brought out by NIPCCD will serve as a ready reckoner for researchers, students, teachers, professionals and other readers.

Dinesh Paul

Director
